## WORK EXPERIENCE

### Technical Program Manager

Phenom – 8<sup>th</sup> April 2024 – 31<sup>st</sup> December 2024

In my role as a Technical Program Manager at Phenom, I oversee the successful delivery of multiple implementation projects, ensuring that they align with broader program objectives and deliver maximum value to our customers. My responsibilities include:

- Leading and managing cross-functional teams across several implementation projects, ensuring on-time delivery and alignment with program goals.
- Serving as the primary point of contact for customers, providing expert guidance throughout the implementation process and driving end-to-end solutions that enhance customer success.
- Developing and executing detailed project and program plans, tracking progress, and managing resources to ensure that milestones are met and deliverables are within scope and budget.
- Communicating project and program performance to stakeholders, ensuring transparency and maintaining alignment with strategic objectives.
- Identifying, assessing, and mitigating risks associated with both individual projects and the broader program, ensuring successful outcomes and adherence to risk tolerance levels.
- Consulting on technical setups with a deep understanding of our TXM platform, ensuring that implementations are optimized for customer needs.
- Gathering and analyzing insights from the field to inform continuous improvement of both our platform and implementation processes.

### Project Manager

OpenSource Connections Gmbh – 1<sup>st</sup> September 2022 – 31<sup>st</sup> January 2024

**Responsibilities:** Developed, implemented, and optimized internal processes, ensuring efficiency and effectiveness across the organization.

- Established and enforced standards for managing project Budget, Quality, and Scope utilizing Scrum methodologies for AI based projects.
- Managed projects using innovative solution-led approach and using various project management methodologies.
